- Asset Management
- Advanced Integration Capabilities
- Extensive Reporting
- VBS & Customer Web Portals
- Mobile Application (CHE & Users)
- Highly Configurable
- Available As SaaS and On-Premise
- Customised AI Capabilities

ABOUT WAVE SYSTEMS

Being a family-owned business since 1999, Wave Systems, now owned by Complexica, has grown into a recognised and robust solution within the Australian logistics sector. Our products are trusted by many of Australia's leading logistics companies, including, among others, Aurizon, DP World Logistics, Flinders Ports, Linfox, Qube Logistics, Toll, Symons & Clark, Hutchison Ports Australia, SEQH, SCT Logistics, SWIFT, Price & Speed, Seaway, and Team Global Express. These enterprises rely on Wave Systems to manage diverse logistics operations, such as mixed cargo ports, road & rail services, warehousing, and empty container parks nationwide. Our dependable, efficient, and secure products support their continuous growth and operational excellence.
